Seniors get catered at 'Day of Love' ball

By: Antoinette Bryant

BUFFALO, N.Y. — It was Valentine's Day all over again for some Buffalo senior citizens, who were treated to a "Day of Love."

Teenagers from different community youth programs volunteered their time to cater to seniors Friday evening at the Richmond Summer Senior Center in Buffalo.

The formal ball featured entertainment for dancing and gave folks a chance to socialize.

Event organizers said the "Day of Love" ball is meant to bridge the gap between older and younger generations.

"We understand that our senior citizens have paved the way for us to be here today," said Daytuan Antonetti, the Young Heroes program director. "Today is just a day to really show them love by having our young people involved to serve as greeters, servers and escorts for the night."

The free event was a collaboration with The Belle Center's Young Heroes and Buffalo AmeriCorps programs, Tuxedo Junction and other community services.
